**HITS Guidelines and Actions for its Competitions and Facilities to reopen under current Social Distancing and other Federal, State and Local Requirements**  
*Updated April 26, 2020*

*This is a working-draft for HITS-Specific Guidelines to ensure the safest environment possible for our shows when shows are able to run. We will continue to update this protocol as we receive updates and information from USEF, local authorities, and informed exhibitors. USEF is also drafting a Protocol that we will add to ours when it is finalized*

HITS, Inc., has prepared the following list of Guidelines and Best Practices in preparation for Equestrian events to re-open in the spring of 2020, once Coronavirus restrictions have been lifted and State and Local governments, as well as the United States Equestrian Federation (USEF) deem it safe to do so.

These guidelines have been developed based on research including recommendations from HITS' home county of Ulster, New York, the New York Farm Bureau, the California Department of Food and Agriculture (CDFA), and the American Horse Council, as well as meetings with the United States Equestrian Federation (USEF) and United States Hunter/Jumper Association (USHJA). We have also researched guidelines published by governing bodies for other sports including USA Triathlon (USAT).

We have taken into consideration the size of our properties, and the number of attendees, but have concentrated our efforts and protocol requirements in the areas that will cause the greatest challenges for social distancing - Restaurant, Show Office, Stabling Area and Warm-up areas.

We believe these guidelines are well within our scope to institute and enforce in these areas during our competitions. We will update the guidelines as needed based on State and Local Government requirements and/or recommendations from other local environmental health and public health agencies. Updates will be posted at HITSShows.com and HITS Social Media.

---

**The below Guidelines will be in place whenever possible and practicable at all HITS Competitions beginning June 1, 2020.**

**General**

- ~ Social Distancing (6 feet between individuals) will be followed
- ~ HITS Staff and Officials will wear masks and gloves at all times when practicable
- ~ Full-Color Signage will be posted throughout the grounds regarding Social Distancing, Hand Washing, and other safety guidelines
- ~ HITS has a property-wide PA system, and announcements regarding these guidelines will be made throughout the event.

**Facility - Access**

- ~ Any person with known or suspected symptoms of COVID-19 or who has been exposed to a person with symptoms of COVID-19 (cough, shortness of breath, or fever) should follow self-quarantine protocol or be barred from or removed from the grounds.

### **Facility - Sanitation and Bio-Security**

- ~ Individuals must stay 6 feet apart (Social Distancing) and must not congregate.
- ~ Individuals should wear a mask or other cloth face covering while on the premises. HITS will provide face coverings free of charge to all staff and exhibitors.
- ~ HITS will provide hand sanitizing stations throughout the premises.

### **Food Service**

- ~ HITS Foodservice is set up for “Take Away” dining.
- ~ Markers indicating 6’ “Social Distance” will be identifiable to all customers in line, and to employees who will maintain such distance whenever practicable.
- ~ Seating is in an outdoor covered area with open sides. Tables and chairs will be set up maintain as much distance as possible between tables to maintain Social Distance between groups. Tables, chairs and other surfaces will be sanitized by HITS Staff continuously throughout the day.
- ~ A new POS system as well as methods to order online or via text will be instituted to decrease person-to-person contact.
- ~ Payment by Credit Card or HITS Card (no cash) will be encouraged to decrease person-to-person contact. A further benefit of using a HITS Card is, take a picture and keep it on your phone so there is one less thing to touch.
- ~ VIP Club will be closed until state and local regulations and guidelines deem it to be safe.

### **Daily Competition Schedule**

- ~ Organizing competition/Classes for “Show and Go” by condensing as many classes of a division (or similar divisions) into as short a time frame as possible. This will allow people to arrive, show and go home within a shorter time-frame.
- ~ Utilize additional competition arenas to shorten days and relieve density. This will mean fewer people on the grounds, and for shorter period of time.
- ~ Increase frequency of our online schedule and time updates throughout the day, via website and social media. Visit the “How Many List” at HITSShows.com or HITS Facebook Story for the most up-to-date information during the shows. We are also investigating Text-Update subscription options.

### **Schooling / Warm-up Areas**

- ~ Each competition ring will have a dedicated schooling area
- ~ Each schooling area will have 6-8 practice jumps
- ~ HITS Staff will institute a plan to clean and disinfect the parts of the jump most often touched, especially the plastic jump-cups
- ~ The Ring Check-in/Order-of-Go system will encourage trainers to prepare all horses for a class at once, so only one jump in the schooling area is used for each trainer group

### **Awards**

- ~ Ribbons/Awards will not be handed out at the ring. They will be mailed, or may be picked up in the show office at a pre-arranged time.
- ~ Alternatively, you may ask that your awards be converted to credits that will provide meals for the less fortunate.
- ~ Contact [Awards@HitsShows.com](mailto:Awards@HitsShows.com) to arrange to receive your awards or donate them toward meal credits.

### **Stabling Areas - Access**

- ~ Access to the Stabling Area will be restricted to Essential Personnel - veterinarians, equine caretakers (grooms), trainers and riders.
- ~ Non-essential individuals (friends, family members, etc.) should not enter the stabling area.
- ~ HITS will arrange stabling so there is appropriate Social Distance between trainer groups. Use only your entrance to your aisle to access your stalls. Do not enter aisles/stabling areas of other trainer groups.
- ~ Trainers should provide an ample quantity of gloves, masks, hand sanitizer and other cleaning/disinfecting products for their staff/customers for use while on premises.

### **Stabling Areas – Sanitation / Bio-Security**

- ~ Encourage Handwashing or Hand Sanitization before entering stabling area.
- ~ Individuals should touch only the equipment and supplies necessary for completing tasks of caring for and exercising the specific horse(s).
- ~ Do not share equipment between individuals - helmets, grooming supplies, tack, etc.
- ~ Keep water buckets and feed buckets/tubs in a fixed position within the stall to ensure feed or water can be provided without touching or removing these items.
- ~ Feed/Bedding delivery by HITS Staff will be made with as little contact as possible.

### **Recommended Cleaning/Disinfection in Barn/Stabling Area**

- ~ According to the CDC, the coronavirus can survive in the air up to three hours, on copper up to four hours, on cardboard up to 24 hours, and on stainless steel and plastic up to 72 hours.
- ~ More specifically to barn/stable items, the virus can persist on nonporous materials (leather bridles/saddles/halters, nylon halters/lead ropes, gate latches, door handles, spray nozzles) longer than porous materials (cotton lead ropes, saddle pads).
- ~ Clean communal leather tack daily with tack cleaner.
- ~ Disinfect stall door handles, gate latches, cross-tie snaps, light switches, feed scoops, hose ends, spray nozzles, pitchforks, wheelbarrows, and other frequently handled surfaces regularly or after contact with personnel.
- ~ Although there is no evidence that horses can contract or become ill from COVID-19, practice good hygiene by washing your hands or using at least 60% alcohol hand sanitizer after touching a horse, communal areas, or communal equipment to prevent environmental spread of the virus.

### **Veterinary Care**

- ~ Veterinarians are reducing non-essential visits and treatments due to a shortage of Personal Protective Equipment as well as Social Distancing requirements.
- ~ Communicate proactively with your veterinarian to prepare for upcoming veterinary needs such as vaccinations, coggins, or other maintenance and treatment procedures.
- ~ Communicate proactively with your veterinarian to prepare for potential veterinary emergencies.
- ~ HITS Official Veterinarian on-grounds will be available for any questions. Phone number will be posted in a visible location at the Show Office, Vet Station and Stabling Area.

---

*This is meant as a guide to ensure the safest environment possible for Equestrian Competition to return to an active state. Updates as needed will be posted at [HITSShows.com](http://HITSShows.com) and HITS Social Media.*
